Preparation of the 26th of March 2013 conference

List of functionalities of the product (**COM/PDM V1.1, PDM WebConnector V3.8**)

	Type of information	Implemented	Roadmap
	Part identification (part and version identification, part view,		X
	Product struture ("As Design", "As Planned", "As Built", …)		X
	Characteristics (properties, shape association & structure)		X
	Document management		X
PDM	Product breakdown		
	Classification		X
	Change management (activities, work management, delta changes)		X
	Configuration management: effectivities		
	Configuration management: options / specifications		X (Aras)
	Requirement management		
	Process Planning		

STEP Implementation formats	Status
BO model XML	X
ISO 10303-21	
Compressed file	

Preparation of the 26th of March 2013 conference
List of functionalities of your product (**COM/FOX V5.5.2**)

Type of information	Implemented	Roadmap
CAD assembly structure (one file)	X	
CAD assembly structure (Nested assemblies)	X	
3D exact geometry	(JT)	
3D tessellated geometry	(JT)	
3D PMI graphic presentation	(JT)	
3D PMI semantic representation	(JT)	
Composite design		
Kinematic	X	
Machining form feature		
3D paramatric model		
Construction History		

STEP Implementation formats	Status
BO model XML	X
ISO 10303-21	
Compressed file	?

Additional functionalities	Status
Geometric Validation Properties	(JT)
Annotation Validation Properties	(JT)
Assembly Validation Properties	(JT)
Saved view Validation Properties	(JT)
user defined attributes Validation Properties	(JT)
Color	(JT)
Invisibility	(JT)
Detailled conversion report	X
